- Premium Quality Products

## Company Profile

A unique social business in Israel, led by a team of Arab and Jewish women working to create social change. Our goals are to produce outstanding olive oils, while enhancing Arab-Jewish cooperation, promoting Sustainability and Fair Trade, and creating economic opportunities for women. We produce premium Fair Trade local products, and channel all of the profits back into our community.

## Product Description

The multiple international and local awards we have received over the past few years attest to the quality, flavor and excellence of our wide range of Extra Virgin olive oils, including FFL, Fair-Trade, kosher and organic oils. Among our other Fair Trade products, you can find delicious za'atar spice mix, carob syrup, almonds, honey and olive oil soaps.

Our za'atar is produced in a traditional way from shade dried za'atar leaves that are grown in the Galilee. We use a unique recipe that adds high quality roasted sesame seeds, sumac and organic olive oil to the ground leaves.
